

Goals

1. Provide the recognized ethical forum that bridges information technologies and issues among government, industry and academic leaders worldwide.
2. Provide value and benefits to members and communities of interest.
3. Actively engage governments on IT policy matters.
4. Grow and maintain our active membership within the IT community.
5. Provide quality professional development.
6. Preserve and foster a spirit of fellowship in all AFCEA activities.

North Carolina Chapter

Support. Serve. Build.

The **Armed Forces Communications and Electronics Association** (AFCEA) established in 1946, is a non-profit membership association serving the military, government, industry, and academia as an ethical forum for advancing professional knowledge and relationships in the fields of communications, information technology, intelligence, and global security. AFCEA supports local chapters, sponsors events, publishes the award-winning *SIGNAL* Magazine, promotes education, and provides member benefits. AFCEA and its chapters provide a common ground for learning. More than 31,000 members support AFCEA International.

Membership Has Its Privileges

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

AFCEA's Professional Development Center is operated by the Educational Foundation and offers classified and unclassified courses for government, military and industry professionals in IT, communications, and intelligence.

ACCESS

AFCEA North Carolina members have access to key military leadership and industry professionals across the country and world through monthly luncheons, special events and outings.

VISIBILITY

Members can gain visibility/recognition through participation/sponsorship of events, serving as board members and contributing to *SIGNAL*, our monthly magazine.
